

Kortum Technique

Residential

2020 Website Program Description

Kortum Technique

Learn to perceive health at a glance using the hidden language of human biology, the Kortum Technique, a Visual Assessment Process.

Residential Program

\$795.00

1 Day + 2 Nights

Access the human body's blueprint for health and healing. Suppose your natural biological design includes a hidden blueprint of your body's functioning and vitality. What if this blueprint could warn you before health problems or illnesses can manifest, and without expensive or invasive laboratory testing?

Describe and identify health indicators. The Kortum Technique, developed by John Kortum, is a Visual Assessment Process that decodes the metabolic bonds that relate to biology and well-being. It translates the body's own vocabulary of health data, which appears in a visible lexicon of symbols that are known as indicators. His technique steps beyond any known western or eastern medical discipline.

Transcend your current understanding of human health and biology. The Kortum Technique is a term adopted by the medical research team who witnessed John's performance in the Bethesda medical office. He identified the quality of health by simply observing a patient's physical presence—often before an MRI, X-ray, Mammogram, or laboratory tests could detect any irregularities. John has been clinically evaluated by a Professor of Medicine at George Washington University Medical Center for identifying health imbalances with 93% accuracy.

Perceive health at a glance. Locate indicators on the human body. Correlate indicators to each of the body’s organs and systems. Interpret diagnostic feedback—reveal the unknown motivations for heath imbalances and learn how to remove them.

What You Get

In addition to the program materials and audio exercises, you will receive the following benefits.

 <div>Semi-Private Rooms</div> <div>Standard accommodations are double-occupancy rooms.</div>	 <div>Free Wi-Fi</div> <div>Free Wi-Fi is available for guests</div>	 <div>Daily Meals</div> <div>Our dining menu offers many healthy fresh options with a farm-to-table philosophy.</div>
 <div>Shuttle Service</div> <div>Local area, shuttle transportation is included on the first and last days of each program.</div>	 <div>Swimming</div> <div>During afternoon breaks, enjoy a dip in the swimming pool or lake (weather-permitting).</div>
